

ABSTRACT**STUD AND RIDER FOR USE ON MATRIX TRAYS**

A carrier for articles has a main body (10) with one or more engagement means (28) for receiving one or more indicators (40, 60). The indicators (40, 60) have
5 one or more contrasting colours compared to the colour of the main body (10). The colour or shape or both of the indicator provides the user with information regarding the articles, carrier or characteristics of the articles or carrier.
