(54) Title: A MOBILE CONTROL UNIT, A FACILITY MANAGEMENT SYSTEM, A MOBILE UNIT CONTROL SYSTEM, A FACILITY MANAGEMENT METHOD AND A MOBILE UNIT CONTROL METHOD

Fig. 7

(57) Abstract: A mobile control unit adapted to move to a plurality of premises, the mobile control unit having a central monitoring system in communication with a facility system of each of the plurality of premises, such that the mobile control unit is adapted to move to one of the plurality of premises when alerted by the facility system of the one of the plurality of premises. A facility management system adapted to manage at least one of the plurality of premises, the facility management system having the mobile control unit and a facility system adapted to monitor each of the plurality of premises. A method of monitoring the plurality of premises using the mobile control unit. A facility management system having a plurality of mobile control units and a main control unit adapted to monitor the location of the plurality of mobile control units. A facility monitoring method having monitoring the location of a plurality of mobile control units from a main control unit; and communicating between the main control unit and the plurality of mobile control units.
