 <213> Artificial Sequence

<220>
 <223> Reporter substrate for ribozyme

<220>
 <221> misc_feature
 <222> (15)..()
 <223> residue 15 has FAM-linked to oligonucleotide

<220>
 <221> misc_RNA
 <222> (21)..(22)
 <223> Residues 21 and 22 are ribonucleic acids

<220>
 <221> misc_feature
 <222> (24)..()
 <223> Residue 24 is synthesized with DABCYL affixed to the T

<220>
 <221> misc_feature
 <222> (41)..()
 <223> Residue 41 has a 3' phosphate group
