ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.*

(54) Title: IMMUNISATION AGAINST *CHLAMYDIA TRACHOMATIS*

(57) Abstract: The published genomic sequence of *Chlamydia trachomatis* reveals over 1000 putative encoded proteins but does not itself indicate which of these might be useful antigens for immunisation and vaccination or for diagnosis. This difficulty is addressed by the invention, which provides a number of *C.trachomatis* protein sequences suitable for vaccine production and development and/or for diagnosis purposes.
