DISPOSABLE ABSORBENT UNDERGARMENT

The invention aims to provide a disposable absorbent undergarment such as a disposable diaper so improved that excrement, particularly, fluidal excrement can be reliably received and held in a crotch region of the undergarment.

A topsheet 13 in a crotch region 4 of a laminated panel 1 is provided with an excrement-permeable zone 16 and, in close contact with lower surface of the excrement-permeable zone 16, there is provided a spacer 17 so that excrement may be guided into and held in a space 22 defined by the spacer 17.

Refer to Fig. 3.
