

4/13

FIG. 4

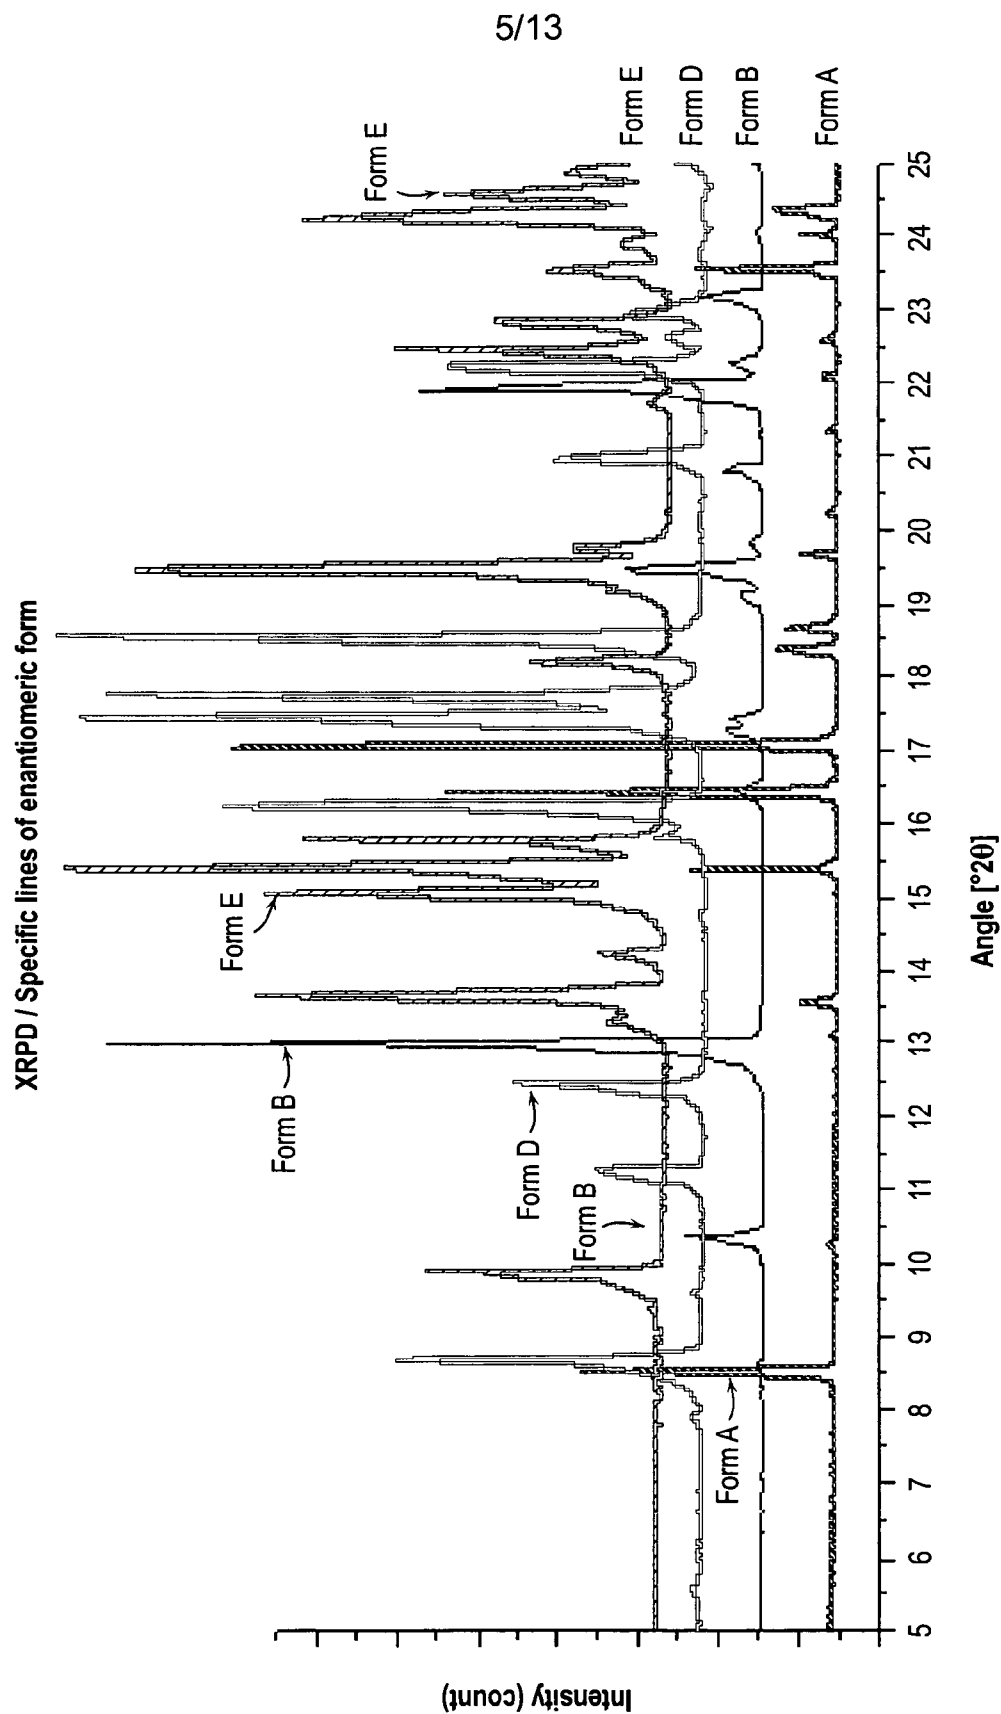

FIG. 5

Specific lines of the enantiomeric forms by XRPD

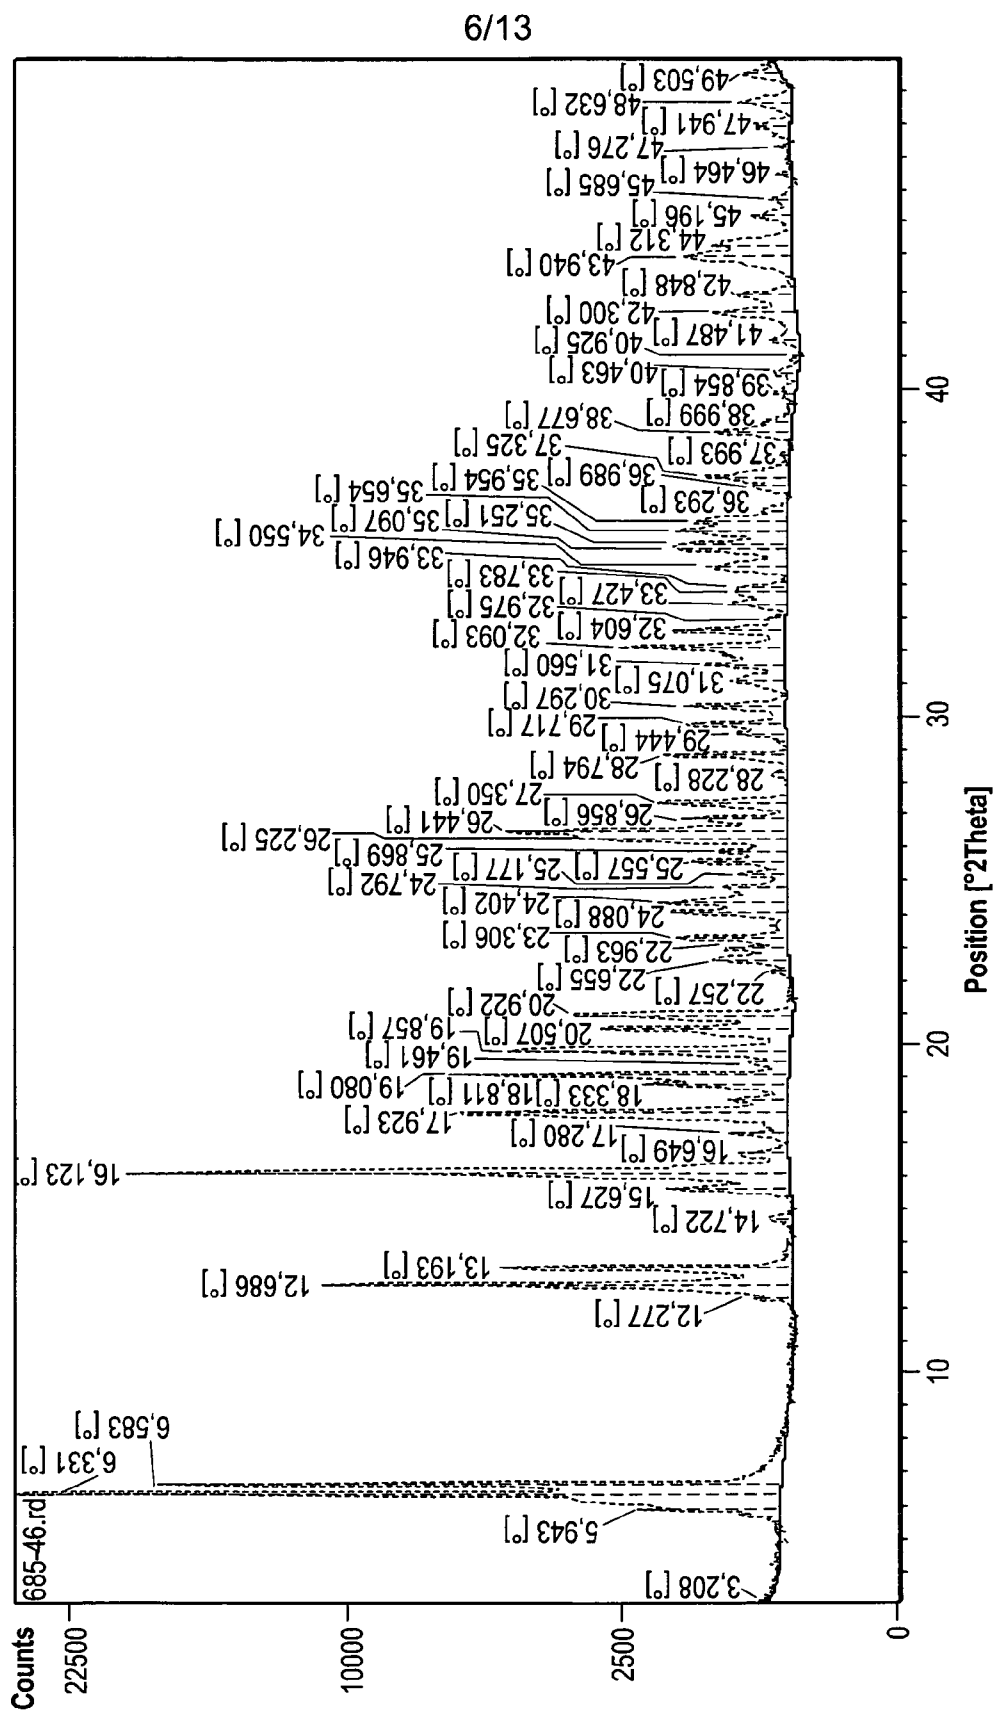

FIG. 6

XRPD pattern of the racemic compound obtained according to the prior art described in WO 02/10172

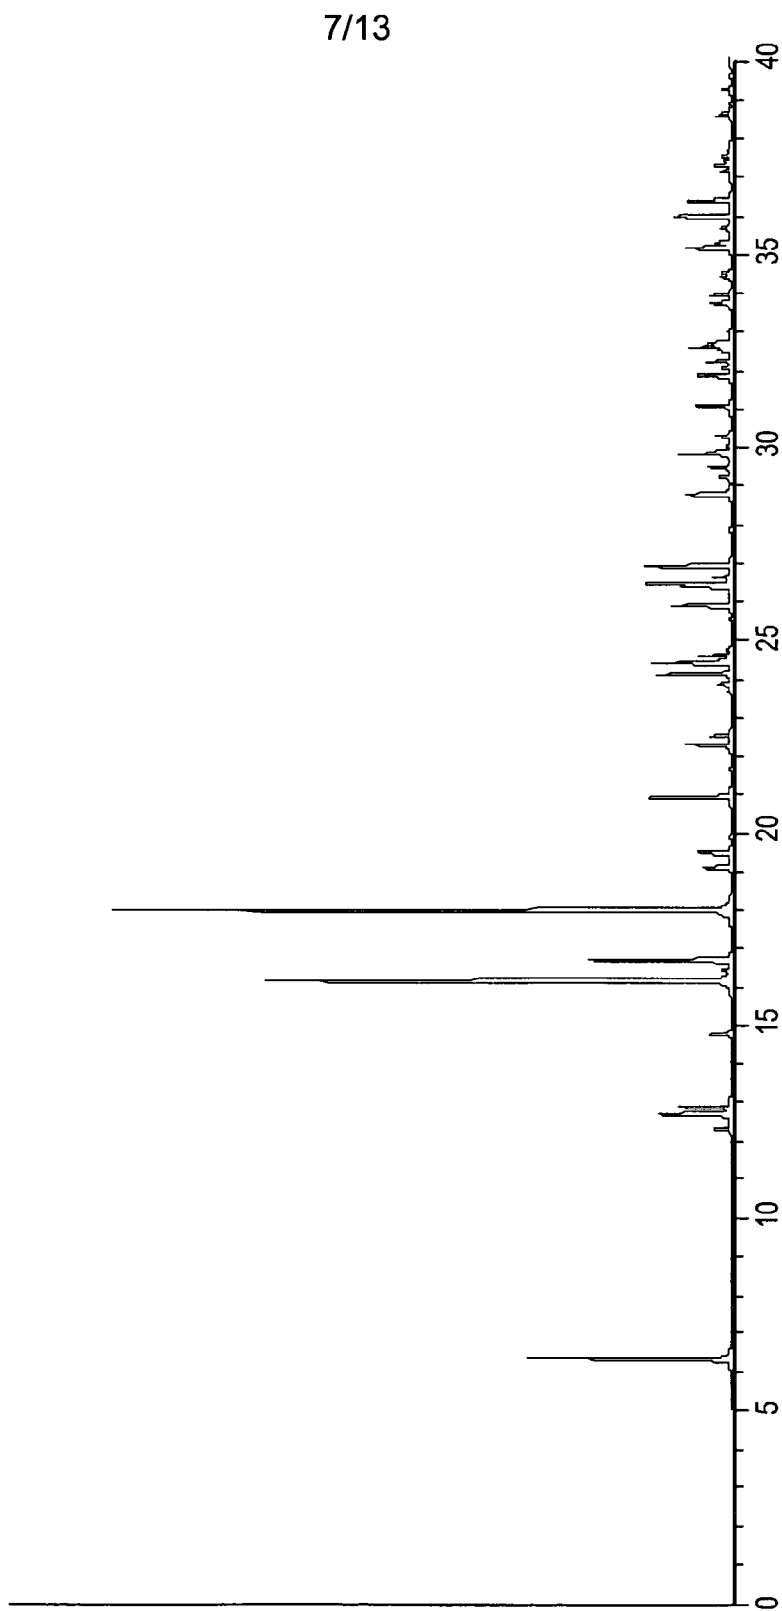

FIG. 7

Theoretical XRPD pattern of the dihydrated form of the racemic compound (monocrystal Example 8)

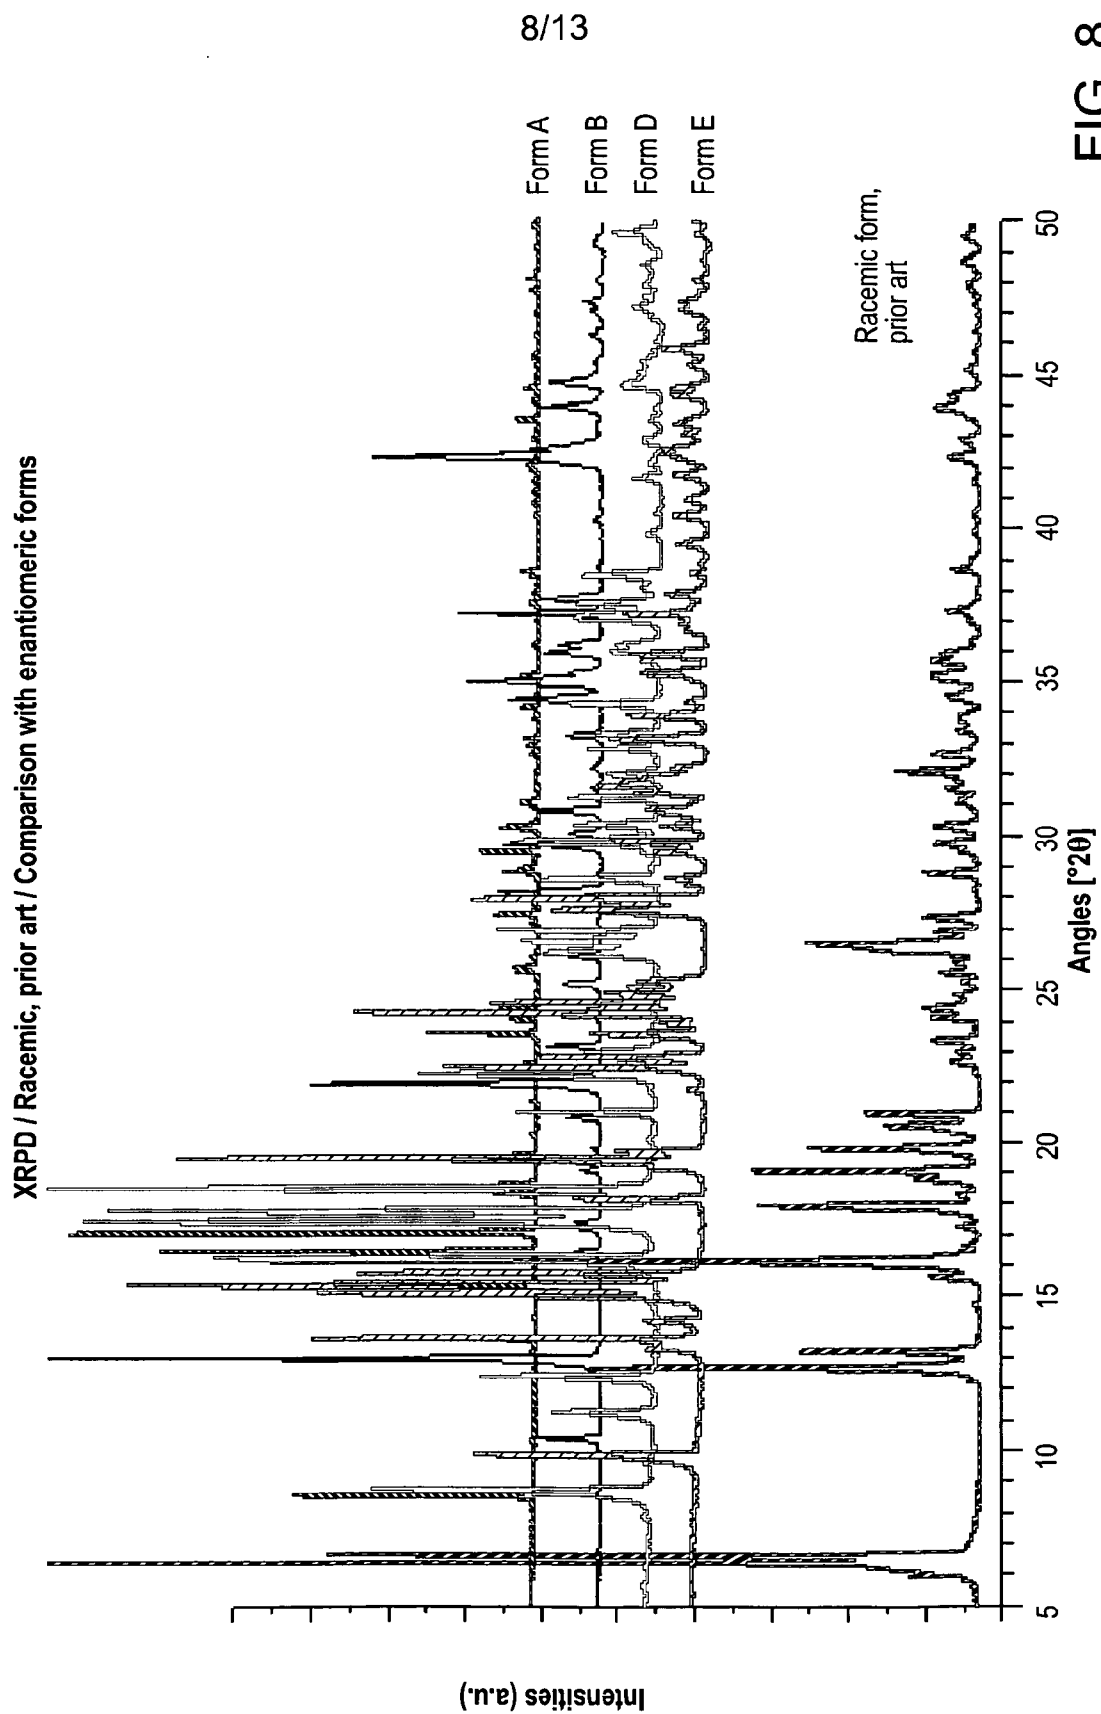

FIG. 8

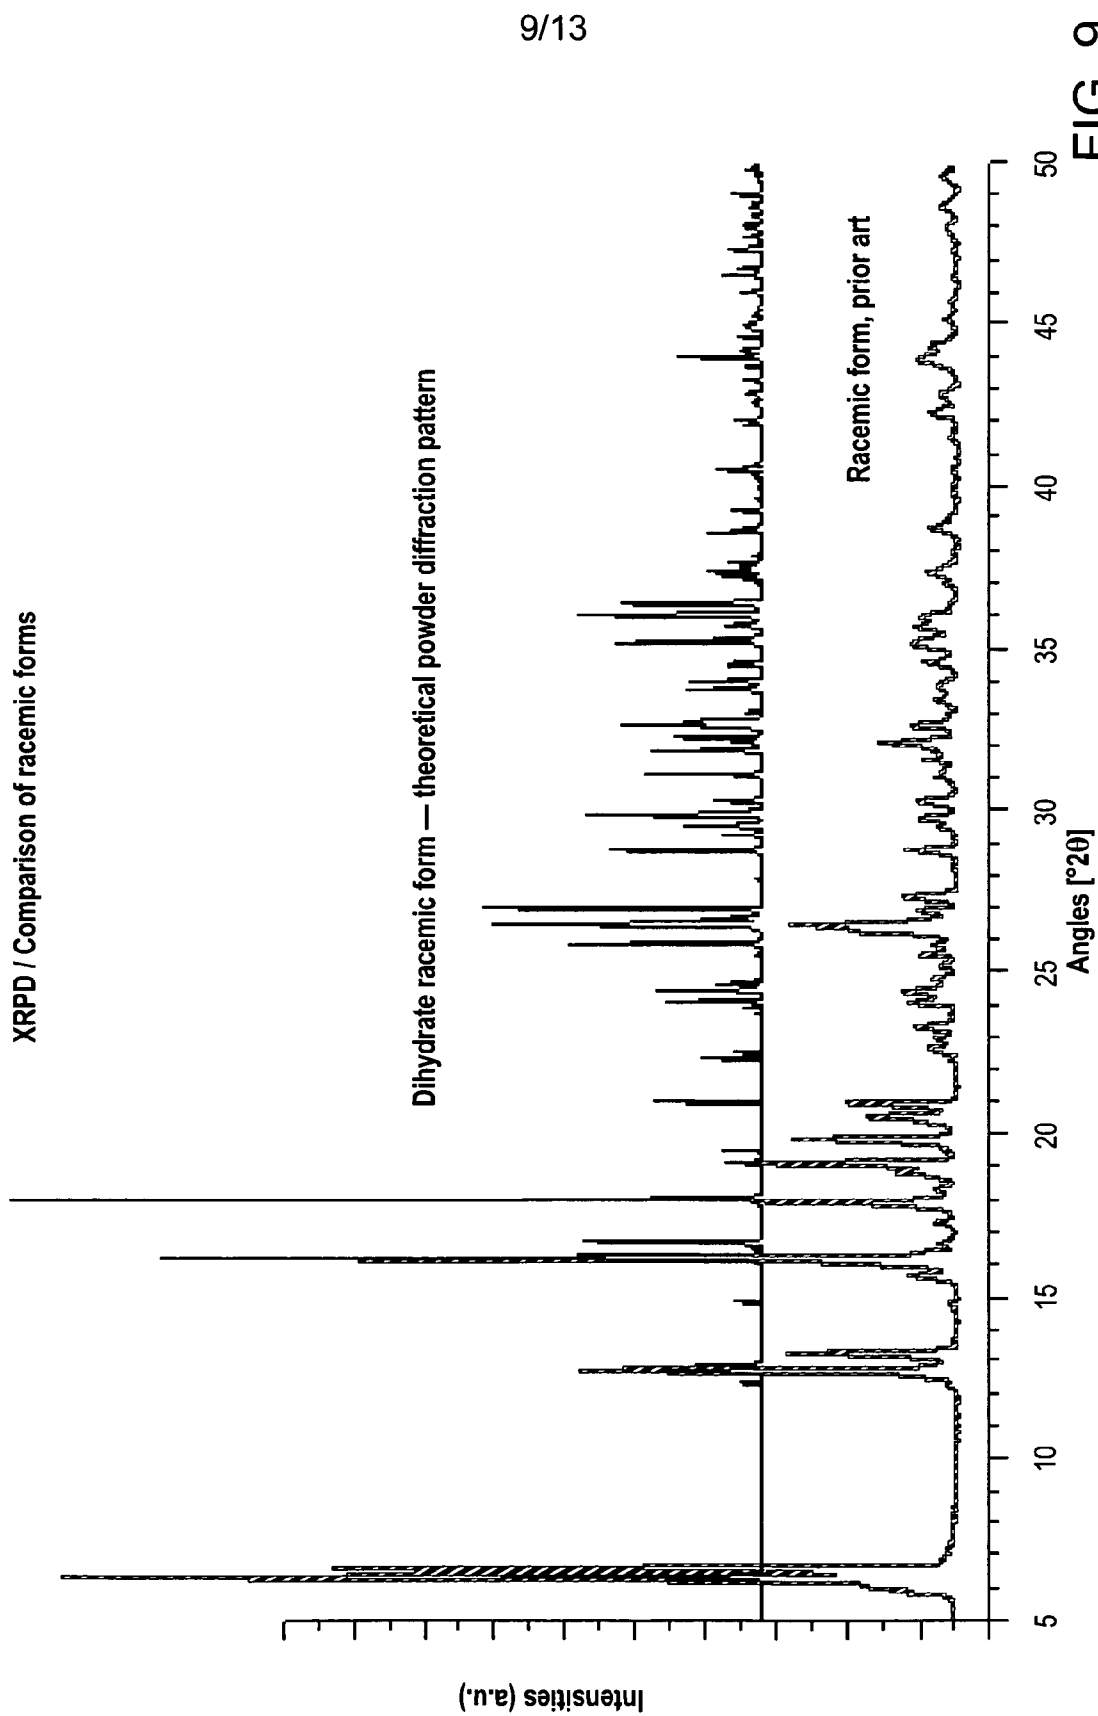

FIG. 9

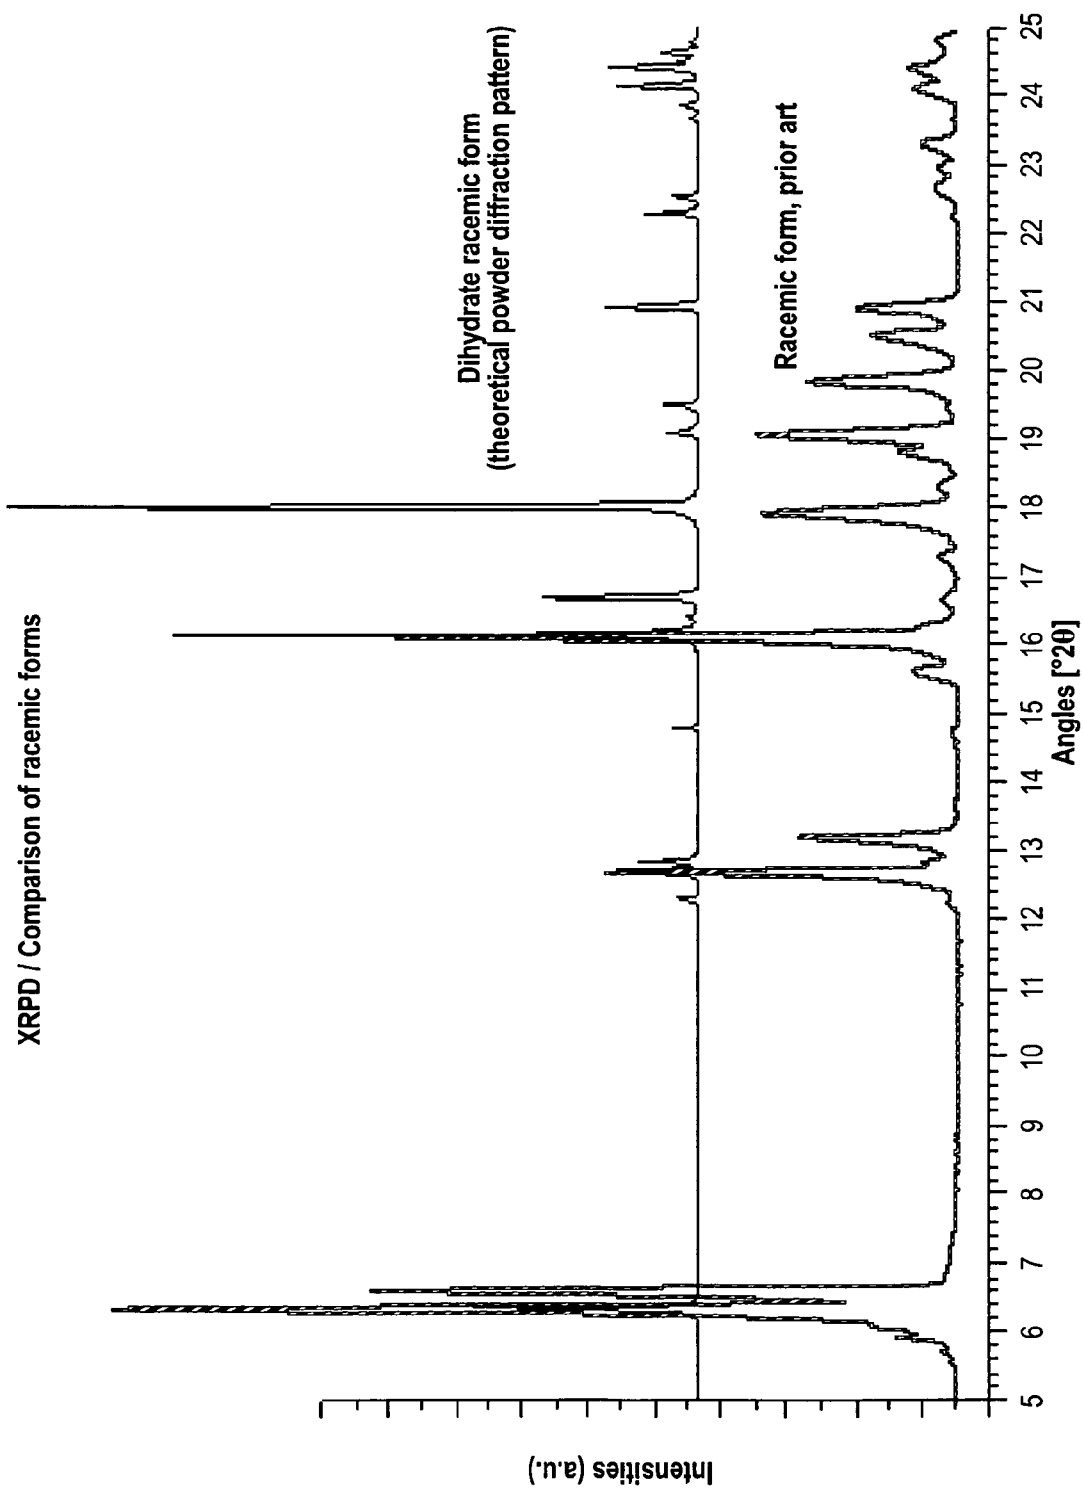

FIG. 10

11/13

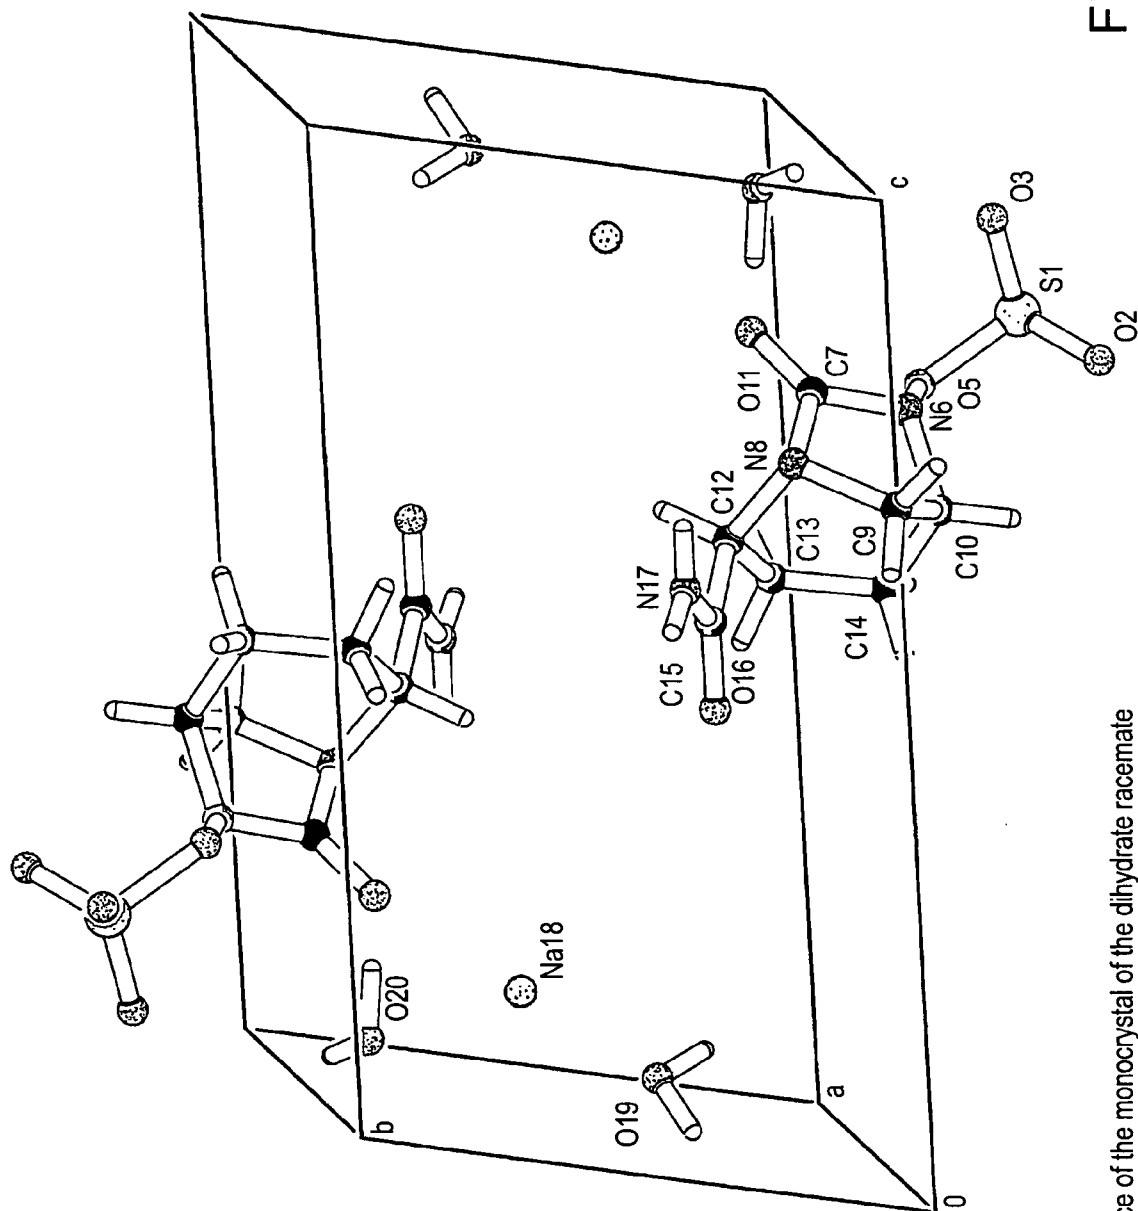

FIG. 11

Representation of the crystal lattice of the monocrystal of the dihydrate racemate

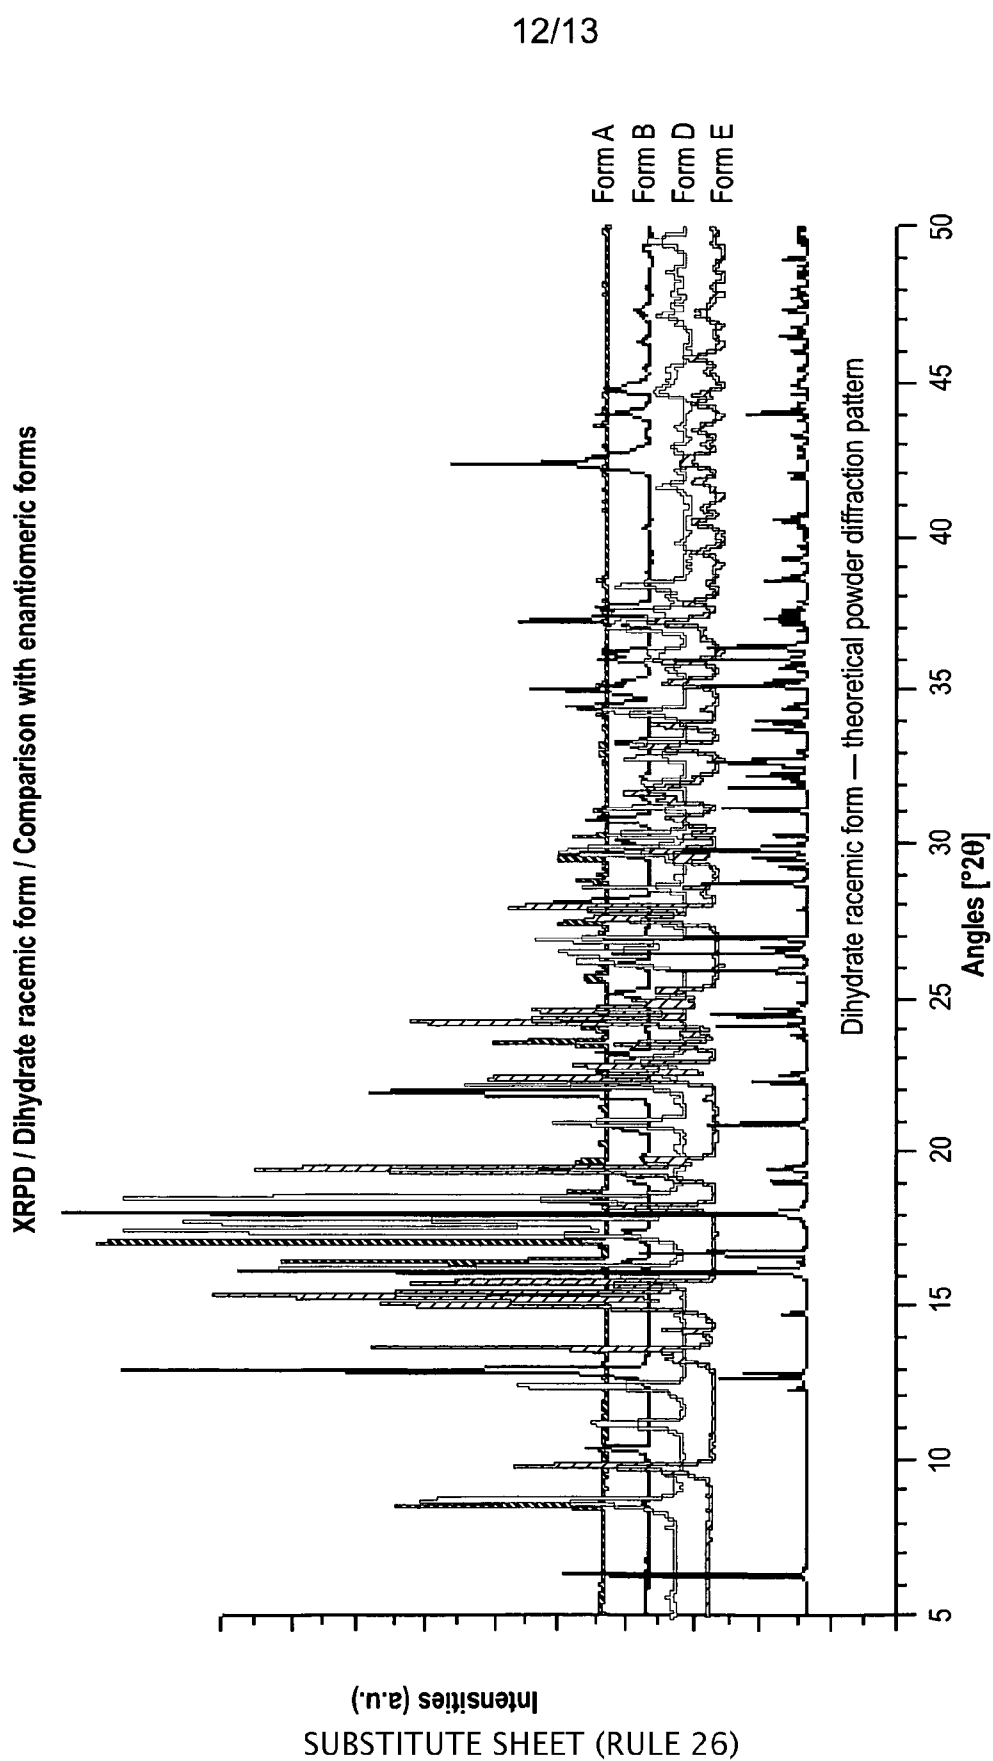

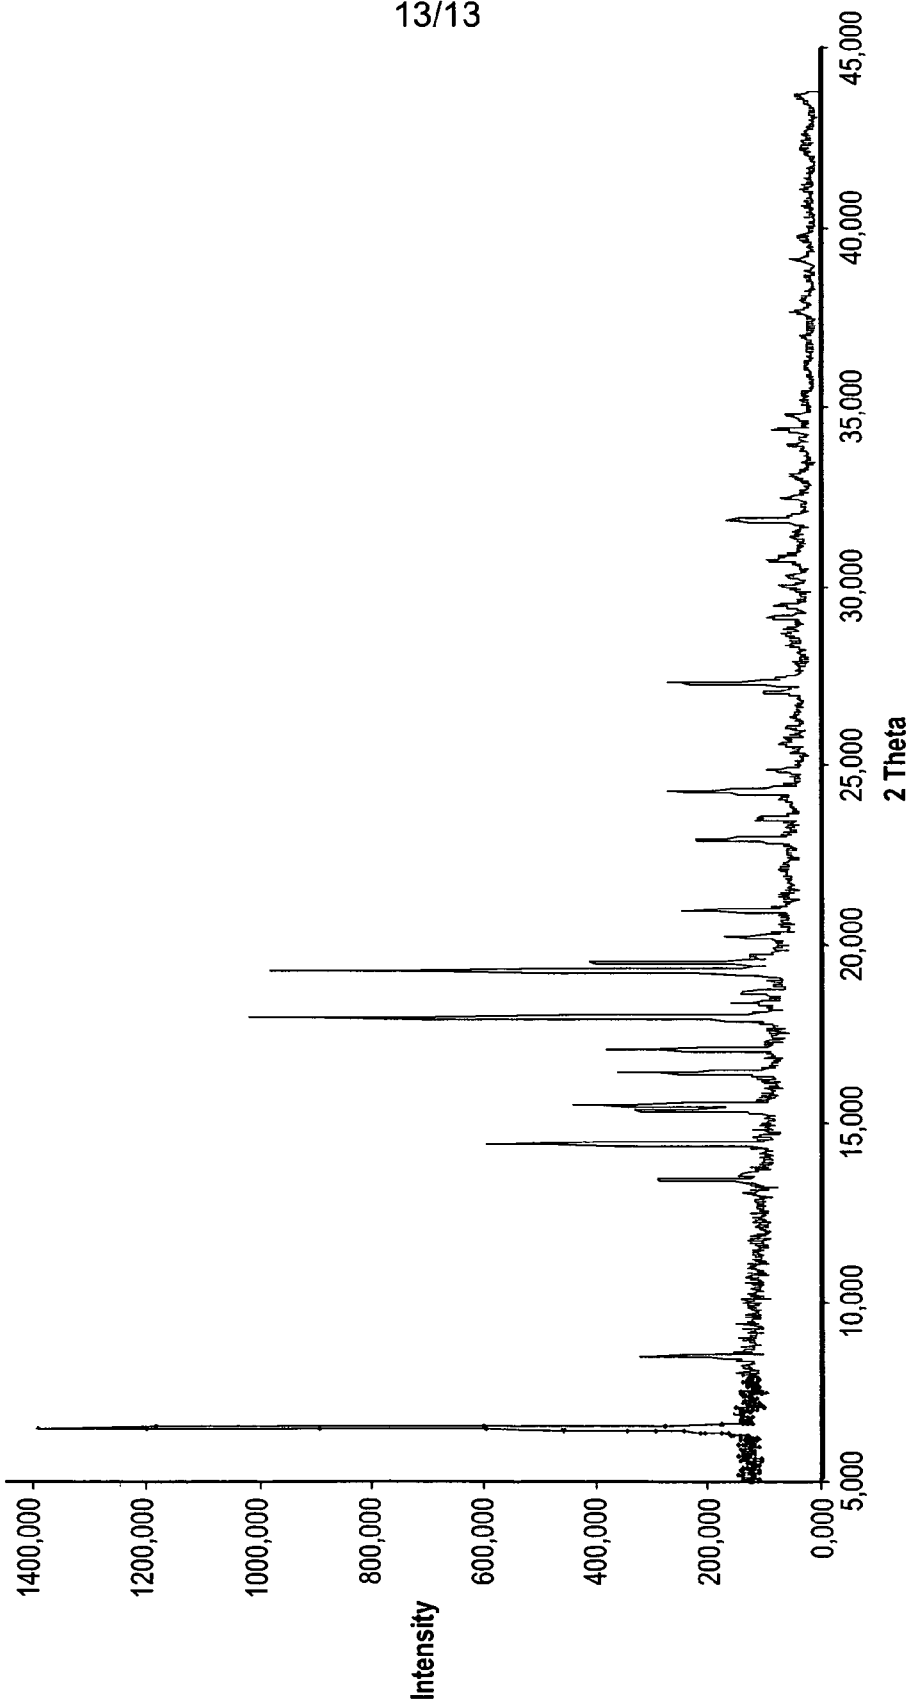

FIG. 12

AVE1330 / NXL104 - Form C

XRPD pattern of the pseudopolymorphic form C

FIG. 13
