(54) Title: PROCESS FOR PREPARING APOLIPOPROTEIN A-I (APO A-I)

Figure 1

(57) Abstract: The present invention relates to processes of obtaining Apo A-I from an Apo A-I containing protein fraction (A), comprising suspending- the Apo A-I containing protein fraction (A) in a buffer solution (B), removing impurities from the suspension while keeping the Apo A- 1 proteins solubilized, followed by precipitating Apo A- I from the suspension and collecting the Apo A-I precipitate. Apo A-I obtained by such processes, reconstituted HDL obtained from such Apo A-I, and pharmaceutical compositions comprising such Apo A-I and/or reconstituted HDL also are provided.
