# CLAIMS

1. A solid composition comprising linalool, geraniol, and dextrin,

wherein a content of linalool in the composition is 0.62 μg or more per gram of the composition (0.62 μg/g),

wherein the composition comprises dextrin having a molecular weight of 50,000 or more,

wherein the composition comprises linear dextrin.

2. The composition according to claim 1, wherein a content of geraniol in the composition is 1.87 μg or more per gram of the composition (1.87 μg/g).

3. The composition according to claim 1 or 2, wherein a proportion of the dextrin having a molecular weight of 50,000 or more in molecular weight distribution of the composition is 5 to 35%.

4. The composition according to any one of claims 1 to 3, wherein a proportion of dextrin having a molecular weight of from 50,000 to 200,000 in molecular weight distribution of the composition is 2 to 30%.

5. The composition according to any one of claims 1 to 4, wherein a proportion of dextrin having a molecular weight of from 200,000 to 350,000 in molecular weight distribution of the composition is 0.5 to 6%.

6. The composition according to any one of claims 1 to 5, wherein a proportion of dextrin having a molecular weight of 250,000 or more in molecular weight distribution of the composition is 0.5 to 8%.

7. The composition according to any one of claims 1 to 6, wherein a proportion of dextrin having a molecular weight of 350,000 or more in molecular weight distribution of the composition is 0.15 to 3%.

8. The composition according to any one of claims 1 to 7, wherein the composition comprises two or more kinds of dextrin.

9. The composition according to any one of claims 1 to 8, wherein the composition further comprises cyclic dextrin.

10. The composition according to any one of claims 1 to 9, further comprising one or more aroma components selected from the group consisting of 2-methylbutanal, α-ionone, β-cyclocitral, (z)-3-hexenol, 1-penten-3-ol, nerolidol, hexanal, (E)-linalool oxide, β-myrcene, trans-β-ocimene, L-α-terpineol, methyl salicylate, benzyl alcohol and indole.

11. The composition according to any one of claims 1 to 10, wherein the composition is a powder composition.

12. The composition according to any one of claims 1 to 11, wherein the composition comprises a tea leaf extract.

13. The composition according to claim 12, wherein the tea leaf extract is a tea leaf extract of sencha.

14. A food or drink comprising the composition according to any one of claims 1 to 13.

15. The food or drink according to claim 14, wherein the food or drink is a beverage.

16. The food or drink according to claim 15, wherein the food or drink is a tea beverage.

17. A food or drink comprising linalool, geraniol, and dextrin,

wherein a content of linalool in the food or drink is 6.0 ppb (v/v) or more per 1.0% solid content (Brix), and

the food or drink comprises dextrin having a molecular weight of 50,000 or more

wherein the composition comprises linear dextrin.

18. The food or drink according to claim 17, wherein a content of geraniol in the food or drink is 18 ppb (v/v) or more per 1.0% solid content (Brix).
