

[0006] It should be noted that general or specific examples may be implemented as a system, a method, an integrated circuit, a computer program, a storage medium, or any selective combination thereof.

[0007] Additional benefits and advantages of the disclosed examples will become apparent from the specification and drawings. The benefits and/or advantages may be individually obtained by the various examples and features of the specification and drawings, which need not all be provided in order to obtain one or more of such benefits and/or advantages.

BRIEF DESCRIPTION OF THE DRAWINGS

[0008] Fig. 1 is a diagram illustrating the configuration of an information management system according to a first embodiment of the present disclosure; Fig. 2 is a diagram illustrating an example of a test meal kit according to the first embodiment;

Fig. 3 is an example of a table on which tablet identifiers (IDs), tastes, and levels of taste are associated with one another for each test meal kit ID;

Fig. 4 is a flowchart illustrating a process for evaluating a user's sense of taste performed by a management server according to the first embodiment of the present disclosure;

Fig. 5 is a first flowchart illustrating a process for conducting a taste resolution measurement test, which is an example of a process for conducting a taste measurement test in step S2 illustrated in Fig. 4;

Fig. 6 is a second flowchart illustrating the process for conducting a taste resolution measurement test, which is an example of the process for conducting a taste measurement test in step S2 illustrated in Fig. 4;

Fig. 7 is a diagram illustrating an example of a taste resolution measurement test screen displayed on a display of a communication terminal according to the first embodiment;

Fig. 8 is a diagram illustrating an example of taste evaluation information displayed on the display of the communication terminal according to the first embodiment;

Fig. 9 is a flowchart illustrating a process for evaluating the user's sense of taste performed by the management server according to a first modification of the first embodiment of the present disclosure;

Fig. 10 is a flowchart illustrating a process for conducting a taste detection
