

ABSTRACT OF THE DISCLOSURE

Title of the Invention: MULTI-LAYERED WATER-DECOMPOSABLE WIPER SHEET

Provided is a multi-layered water-decomposable wiper sheet including a water-decomposable top sheet of water-dispersible fibers and a water-decomposable back sheet layered on the top sheet. The top sheet is provided with a large number of through-holes. The through-holes are closed by the back sheet at the interface between the top sheet and the back sheet.
