(54) Title: MOLDED POLYIMIDE ARTICLE

(57) Abstract: Provided herein is a molded polyimide article having excellent insulating properties and mechanical properties, which is useful for electronic components. The molded polyimide article has lower than 5 of dielectric constant and at least 7.5 GPa of flexural modulus, and formed from a composition comprising (A) at least 30 weight % of at least one sheet silicate, based on the weight of the polyimide composition, and (B) at least one polyimide.
