(54) Title: NEGATIVE ADD LIQUID MENISCUS LENS

**FIG. 3**

(57) Abstract: The present invention relates generally to an arcuate liquid meniscus lens with a meniscus wall. Some specific embodiments include a liquid meniscus lens with a meniscus wall essentially a conical frustum and at least a portion of the conical frustum concave in relation to the optical axis. An application of an electrical current to the meniscus wall provides for a increase in negative power in an optical quality provided by the liquid meniscus lens. Embodiments may also include a lens of suitable size and shape for inclusion in a contact lens.
