

ABSTRACT

MASK-INTEGRATED SURFACE PROTECTIVE TAPE WITH RELEASE
LINER

A mask-integrated surface protective tape with a release liner,
5 containing: a base film, a temporary-adhesive layer, a release film, a mask
material layer, and a release liner, in this order,
wherein the release film and the release liner each have one
release-treated surface, and the release-treated surfaces of the release film
and the release liner each are in contact with the mask material layer, and
10 wherein the peeling strength between the release liner and the
mask material layer is smaller than the peeling strength between the
release film and the mask material layer.
