(54) Title: A WIP MANAGEMENT SYSTEM

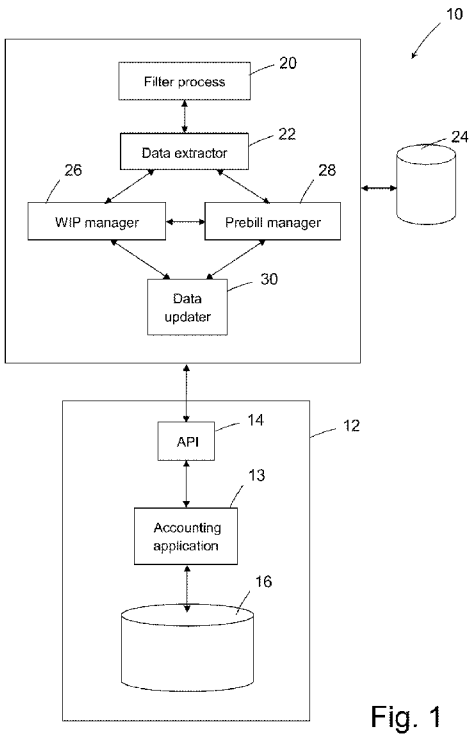

Fig. 1

(57) Abstract: A WIP management system is disclosed that comprises a data storage device arranged to store work in progress (WIP) data indicative of work in progress financial amounts associated with at least one person, and a filter arranged to facilitate filtering of the WIP data according to received criteria so as to produce filtered WIP data. The system is arranged to facilitate display of filtered WIP information indicative of the filtered WIP data, to facilitate selection by a user of WIP from the filtered WIP information and to instigate invoice processing based on the selected WIP. A corresponding method of managing WIP is also disclosed.
