

ABSTRACT

Provided are a control display method and apparatus, an electronic device, and a storage medium. The method includes: displaying a video playback page, where a target video playback-area of a currently played video and at least one control area are displayed in the video playback page, and
5 the at least one control area is located in an upper layer of the target video playback-area and configured to display at least one interaction control of the currently played video; receiving a target slide operation acting on the video playback page; and in response to the target slide operation, controlling the target video playback-area to move along a sliding direction of the target
10 slide operation and adjusting a degree to which the at least one interaction control obstructs the target video playback area.
