| <b>(54) Title:</b> <b>A METHOD OF MAKING A LIQUID FERTILIZING SUBSTANCE</b><br><b>(57) Abstract</b><br><p>A method of making a liquid fertilizing material includes the steps of preparing an extract of a natural organic material and combining the extract with a fertilizing substance. The natural organic material includes animal droppings and the fertilizing substance is selected from water-soluble salts and mixtures of water-soluble salts.</p>                                                                                                                                                                                                                                                                                                                                                                                                                     |           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
