(54) Title: A METHOD AND APPARATUS FOR LAYING PAINT INDICIA ON A ROAD SURFACE AND A METHOD FOR TRANSMITTING INFORMATION TO VEHICLES

FIG.1

(57) Abstract: The present invention provides a method and apparatus for laying paint indicia on a road surface, whereby the paint indicia includes magnetic elements that can be detected by at least one sensor to provide binary signals for transmission of information to a vehicle communicatively coupled to the at least one sensor. The transmission of information can be carried out regardless of a speed of the vehicle. Furthermore, the transmission of information can be carried out under all weather/visibility/road conditions.
