

ABSTRACTBRACELET-WATCH INCLUDING A DEVICE ALLOWING
ADJUSTMENT OF THE LENGTH OF THE BRACELET

The bracelet (6, 7) includes a series of links (8) articulated via bars (9). The links and the bars are held together by a tie (10) passing through holes (13, 15). The end (2) of the bracelet (6) includes a special link (3) to which the tie (10) is fastened by means of a fixing device (14, 16). This special link (3) is provided with a recess (4) arranged after said fixing device. A certain excess portion (11, 12) of the tie (10) can be held in reserve in this recess (4).
