(54) **Title:** PROGRAM, INFORMATION PROCESSING SYSTEM, AND INFORMATION PROCESSING DEVICE

FIG.27

(57) **Abstract:** A program for causing an information processing device connected to an apparatus to perform a method includes acquiring from the apparatus a display setting representing a setting of display for one or more user interface components displayed by the apparatus; selecting, in response to the acquired display setting, one of display settings representing a setting of display for one or more user interface components displayed on a screen of the information processing device; and displaying the one or more user interface components on the screen of the information processing device in accordance with the selected display setting.
