FIG. 2

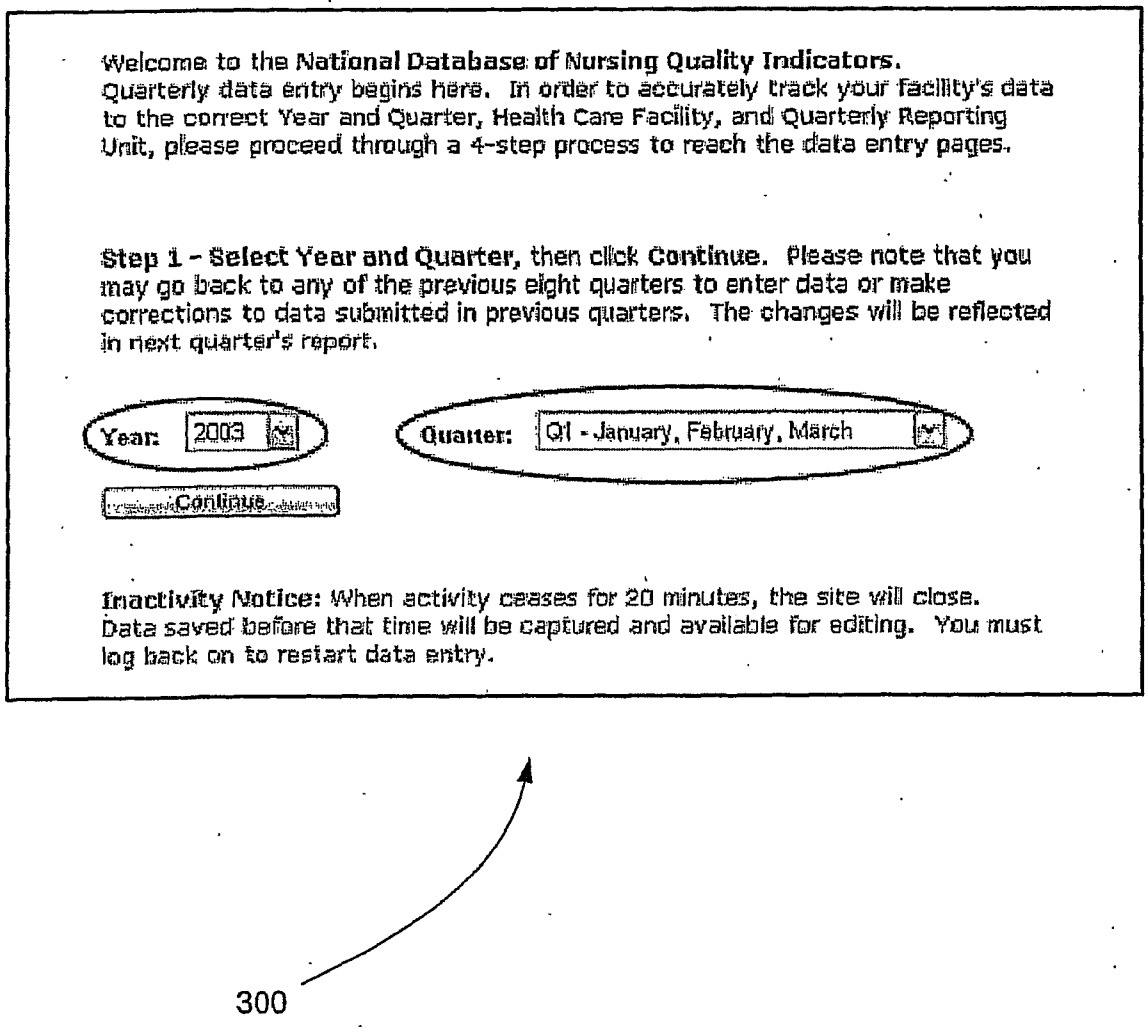

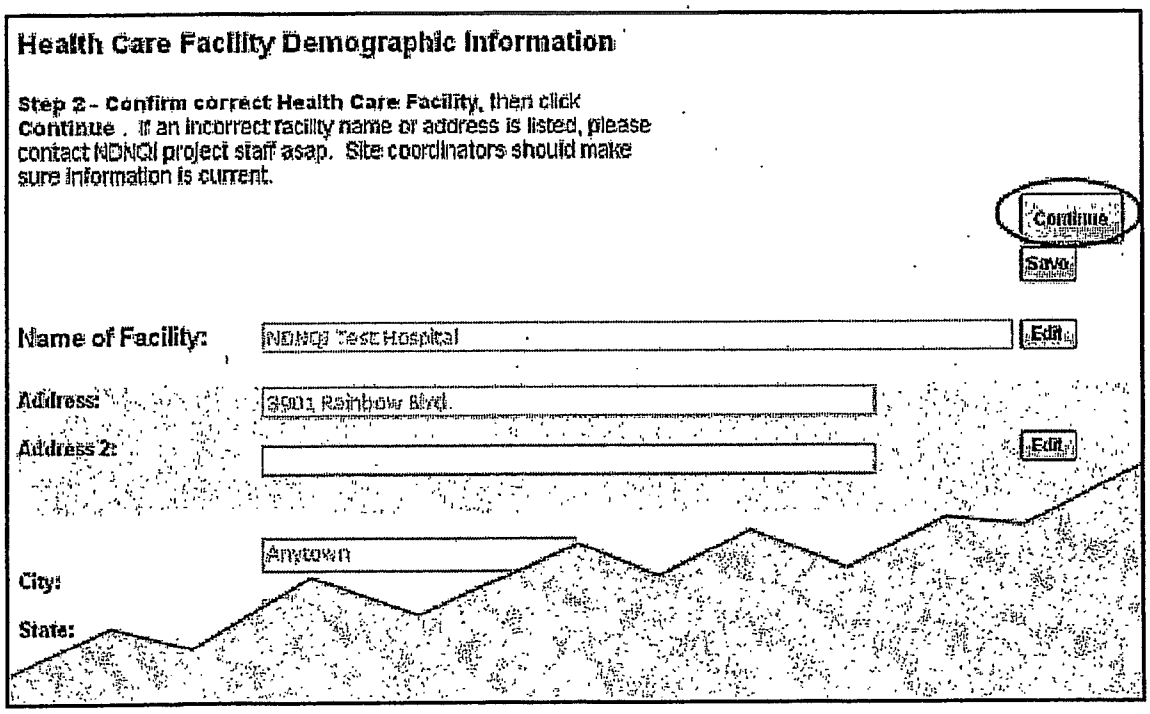

Welcome to the National Database of Nursing Quality Indicators.
Quarterly data entry begins here. In order to accurately track your facility's data to the correct Year and Quarter, Health Care Facility, and Quarterly Reporting Unit, please proceed through a 4-step process to reach the data entry pages.
Step 1 - Select Year and Quarter, then click Continue. Please note that you may go back to any of the previous eight quarters to enter data or make corrections to data submitted in previous quarters. The changes will be reflected in next quarter's report.
Year: 2003
Quarter: Q1 - January, February, March
Continue
Inactivity Notice: When activity ceases for 20 minutes, the site will close. Data saved before that time will be captured and available for editing. You must log back on to restart data entry.

FIG. 7

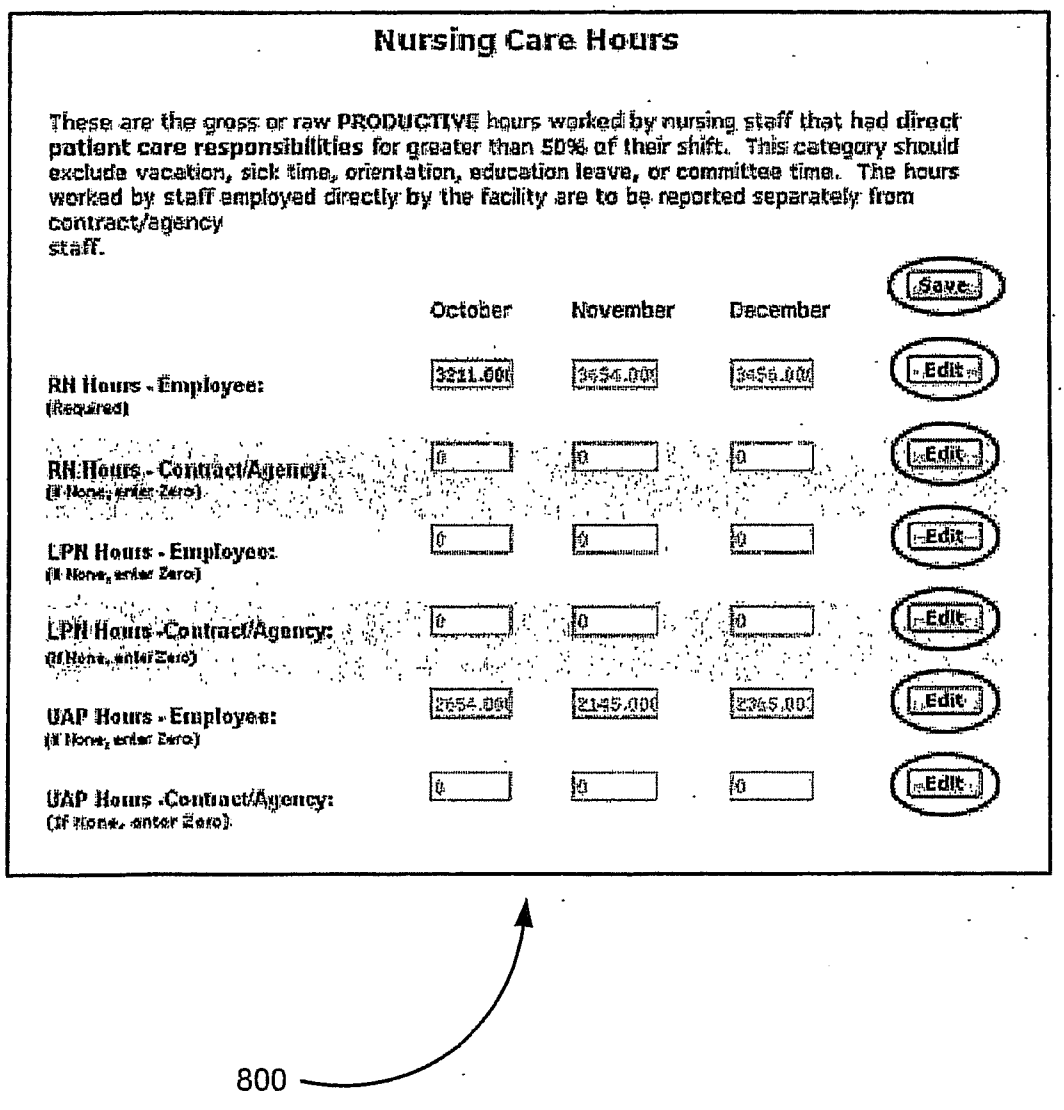

Nursing Care Hours
These are the gross or raw PRODUCTIVE hours worked by nursing staff that had direct patient care responsibilities for greater than 50% of their shift. This category should exclude vacation, sick time, orientation, education leave, or committee time. The hours worked by staff employed directly by the facility are to be reported separately from contract/agency staff.

Individual Falls(Fall ID, Month, Age, Gender
AutoNumber
Patient Falls - A patient fall is an unplanned descent to the floor (or extension of the floor, e.g., trash can or other equipment) with or without injury to the patient, and occurs on an eligible reporting nursing unit. Exclude falls for patients who are not on the unit at the time of the fall (e.g patient in x-ray). Also exclude falls by visitors, students or staff members.
