

MAGNESIUM OXIDE PARTICLE, METHOD FOR PRODUCING IT, EXOERGIC
FILLER, RESIN COMPOSITION, EXOERGIC GREASE AND EXOERGIC
COATING COMPOSITION

5

ABSTRACT

The present disclosure provides a magnesium oxide
particle that can be used more suitably than common
magnesium oxide in the application such as an exoergic
10 filler and the like. A magnesium oxide particle having
(median size)/(specific surface diameter obtained from
specific surface area) ratio of 3 or less and D90/D10 of
4 or less is provided.
