(54) Title: A METHOD AND A SYSTEM FOR MANAGING A CARGO STORAGE AREA

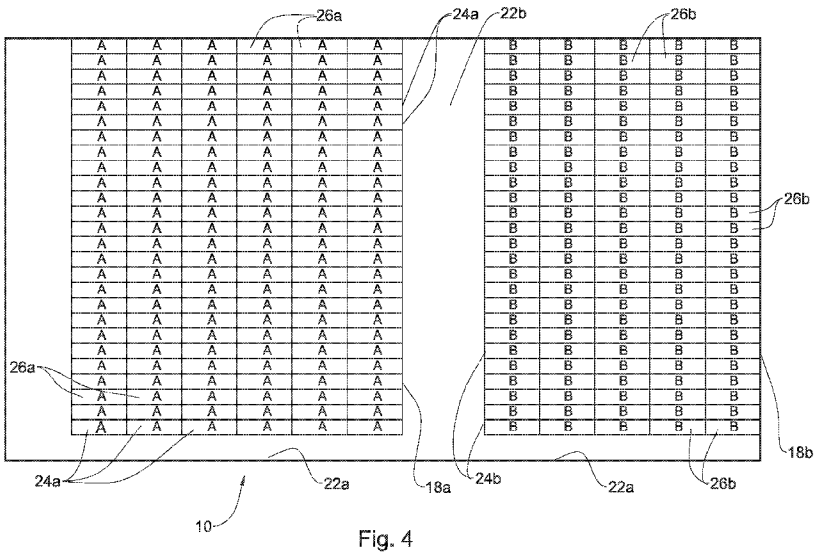

Fig. 4

(57) Abstract: A method for managing storage of a group of containers in a cargo storage area, is provided, the group is characterized by one or more parameters for each container. The method comprising: selecting among the parameters at least one parameter as a basis for selecting storing configuration for the group. The storing configuration are one of a first storing configuration which allows direct access to each one of the containers and a second storing configuration which allows direct access only to some of the containers. The method further comprising selecting one of the configurations based on the at least one parameter.
