4. We have discovered that the subject patent application has been accorded with a Date of Filing 30 June 2009 when we received your letter dated 12 January 2012 (Allocation of Date of Filing), where the information of the priority data of the US patent may not have been included in the subject patent application.
5. As such, we proceeded to file Form 23 to correct the declaration of priority on the Register on 25 January 2012 thereby ensuring the declaration of priority of the US patent is included and consistent with the Parent Application.
6. In view of the above, we humbly request the Registrar to allow the declaration of priority to be corrected for the subject patent application.

Yours faithfully

Harry Elias Partnership
