TITLE OF INVENTION: HYPOALLERGENIC COMPOSITION FOR SKIN REGENERATION OR SKIN SOOTHING, CONTAINING CULTURE PRODUCT OR EXTRACT OF AUREOBASIDIUM PULLULANS STRAIN

【ABSTRACT】

Disclosed in the present specification is a hypoallergenic composition for skin regeneration or skin soothing, containing, as an active ingredient, an Aureobasidium pullulans strain, a lysate thereof, a culture product thereof, or an extract of the strain, lysate or culture product. Unlike conventional functional ingredients, the composition is non-irritating to the skin, and thus is safe, while having a skin regeneration effect, and has a skin soothing effect by relieving irritation.
