(54) **Title:** THREE DIMENSIONAL MEMORY AND METHODS OF FORMING THE SAME

FIG. 3

(57) **Abstract:** Some embodiments include a memory device and methods of forming the memory device. One such memory device includes a first group of memory cells, each of the memory cells of the first group being formed in a cavity of a first control gate located in one device level of the memory device. The memory device also includes a second group of memory cells, each of the memory cells of the second group being formed in a cavity of a second control gate located in another device level of the memory device. Additional apparatus and methods are described.
