ABSTRACT

ANTI-ANDROGENS FOR THE TREATMENT OF METASTATIC CASTRATION-SENSITIVE PROSTATE CANCER

Described herein are methods of treating metastatic castration-sensitive prostate cancer with anti-androgens, including but not limited to, 4-[7-(6-cyano-5-trifluoromethylpyridin-3-yl)-8-oxo-6-thioxo-5,7-diazaspiro[3.4]oct-5-yl]-2-fluoro-N-methylbenzamide.
