60
Is connector 22 connected?
No
62
Content in display 24 remains in same orientation, functions of controls 28, 30 remain unchanged.
Yes
61
63
64
Is a switch in the connector 22 activated?
No
68
Content in display 24 remains in same orientation, functions of controls 28, 30 remain unchanged.
Yes
66
Is the detected impedence level low?
Yes
70
Content in display 24 remains in same orientation, functions of controls 28, 30 remain unchanged.
Yes
No
What is the peripheral device?
76
What is the peripheral device?
78
Content in display 24 rotates, functions of controls 28, 30 are interchanged.
72
Content in display 24 rotates, functions of controls 28, 30 are interchanged.
