(54) Title: INTERACTION METHOD AND APPARATUS, ELECTRONIC DEVICE AND READABLE MEDIUM

(54) 发明名称: 一种交互方法、装置、电子设备和可读介质

S101 In response to a page display operation, display a target page, wherein the target page comprises a first region and a second region, the first region being used for displaying multimedia information that corresponds to a first account, and the second region being used for displaying attribute information of at least one recommended object that corresponds to a second account, and resource attribute information that corresponds to a candidate object set; and the first account and the second account being the same account or associated accounts, and a candidate object in the candidate object set being a recommended object selected from among the at least one recommended object.

S102 In response to an interaction operation for the candidate object set, performing preset interaction processing, which corresponds to the interaction operation, on the candidate object in the candidate object set

(57) Abstract: Disclosed in the present application are an interaction method and apparatus, an electronic device and a readable medium. The method comprises: in response to a page display operation, displaying a target page, wherein the target page comprises a first region and a second region, the first region being used for displaying multimedia information that corresponds to a first account, and the second region being used for displaying attribute information of at least one recommended object that corresponds to a second account, and resource attribute information that corresponds to a candidate object set; and in response to an interaction operation for the candidate object set, performing preset interaction processing, which corresponds to the interaction operation, on a candidate object in the candidate object set.

(57) 摘要: 本申请公开了一种交互方法、装置、电子设备和可读介质, 响应于页面展示操作, 展示目标页面, 该目标页面包括第一区域和第二区域, 第一区域用于展示第一账号对应的多媒体信息, 第二区域用于展示第二账号对应的至少一个推荐对象的属性信息以及候选对象集对应的资源属性信息; 响应于对候选对象集的交互操作, 对该候选对象集中的候选对象进行交互操作对应的预设交互处理。
