(54) Title: ANTIREFLECTIVE COATING COMPOSITION AND PROCESS THEREOF

Figure 1: Imaging Process of a Trilayer

(57) Abstract: The invention relates to an antireflective coating compo-
sition comprising a ' crosslinker and a crosslinkable polymer capable of
being crosslinked by the crosslinker, where the crosslinkable polymer
comprises a unit represented by structure (1) where A is a fused aromat-
ic ring and B has a structure (2), where R₁ is C₁-C₄alkyl and R₂ is C₁-
C₄alkyl. The invention further relates to a process for forming an image
using the composition.
