

TITLE OF INVENTION:

SEAL HANDLING, SEAL HANDLING MANAGEMENT AND SEAL HANDLING
TRAINING SYSTEM, PROGRAM AND METHOD

5

ABSTRACT

Unified management of seal handling training, sealing
material selection, and seal handling is implemented to enhance
the accuracy and reliability of the seal handling.

10

A client (4) to order a seal handling, a contractor (6) to
receive a contract for the seal handling, and a support center (8)
to support the seal handling are linked to issue from the client
to the contractor an instruction for receiving a seal handling
training at the support center, and the seal handling by the
15 contractor is permitted on condition that the seal handling training
for the contractor is received at the support center in response
to the instruction for receiving the training.
