Abstract

A composition and uses thereof

The present invention provides a composition, the composition comprising: (a) at least one polymer; and (b) at least one surfactant, wherein the surfactant has
5 a carbon chain of C_{17} or longer. In particular, the composition may be a cooling composition. The composition may be used in several applications such as in pillows, seat cushions, mattresses, caps, vests, headbands, backpacks, brassieres, underwear, diapers, shoulder pads, back pads, eye packs, foot pads and/or forehead packs.
