

ABSTRACT

The present invention relates to a novel phosphite compound represented by the formula (I):

5 wherein R^1 , R^2 , R^3 and R^4 each independently represent a
hydrogen atom, an alkyl group having 1 to 8 carbon atoms, a
cycloalkyl group having 5 to 8 carbon atoms, an
alkylcycloalkyl group having 6 to 12 carbon atoms, an
aralkyl group having 7 to 12 carbon atoms, or an aryl group
10 having 6 to 12 carbon atoms, a process for producing the
same, and uses thereof as a stabilizer for an organic
material.
