

ABSTRACT

An object of the invention is to provide a non-alcohol beer-taste beverage excellent in robust feeling of drinking and also excellent in foam quality. The means for solving the problems is a non-alcohol beer-taste beverage containing a wort fermented liquid, having a malt use ratio of 50% or more, a real extract concentration of 6 w/v% or more, and a ratio of bitterness value (BU) to real extract concentration (w/v%) (bitterness value/real extract) of 2.0 to 3.8.
