INTEGRATED INTERNET PORTAL AND DEPLOYED PRODUCT MICROSERVER MANAGEMENT SYSTEM

ABSTRACT OF THE DISCLOSURE

The present invention relates to an integrated system for monitoring a deployed product on a movable platform, gathering data about the deployed product, and disseminating the data about the deployed product. The system includes a server located on the movable platform capable of communication with the server from a remote location. The server communicates with a source of data about the deployed product. The system further includes a portal onto which data gathered by the server may be downloaded and with which one can upload information to the server.
