CLAIMS

1. A dentifrice comprising scutellaria root, rehmannia root and platycodon root.

2. The dentifrice as claimed in claim 1, wherein when a content ratio of the scutellaria root in the dentifrice is defined as X_A [mass%] and a content ratio of the rehmannia root in the dentifrice is defined as X_C [mass%], the following relation is satisfied: $4 \leq X_C/X_A \leq 120$.

3. The dentifrice as claimed in claim 1 or 2, wherein when a content ratio of the platycodon root in the dentifrice is defined as X_B [mass%] and a content ratio of the rehmannia root in the dentifrice is defined as X_C [mass%], the following relation is satisfied: $0.0005 \leq X_C/X_B \leq 20000$.

4. The dentifrice as claimed in any one of claims 1 to 3, wherein a content ratio of the scutellaria root in the dentifrice is 0.0005 mass% or more and 0.5 mass% or less, a content ratio of the platycodon root in the dentifrice is 0.001 mass% or more and 1 mass% or less, and a content ratio of the rehmannia root in the dentifrice is 0.001 mass% or more and 2 mass% or less.

5. The dentifrice as claimed in any one of claims 1 to 4, wherein a content ratio of the rehmannia root in the dentifrice is larger than a content ratio of the scutellaria root in the dentifrice.
