Abstract

10 The invention pertains to a method for treating foamed
plastic particles 32 that are present in pourable form, as
well as a device for carrying out the method. The invention
is characterized by the fact that the foamed plastic parti-
cles 32 are reduced in volume in an evacuated environment
15 and then introduced into a mold 10, 34, 46, 52, 56, in
which the foamed plastic particles 32 are subsequently re-
stored toward their original outer shape in a non-evacuated
environment.
