(54) Title: SYSTEMS AND METHODS FOR AUTHORIZING ACCESS TO CONTENT FOR A TELEVISION RECEIVER

(57) Abstract: Described herein are techniques for transferring content authoriza-
tion information between television receivers. Authorization information for con-
tent and features associated with a television receiver is securely stored on a
portable storage device. The portable storage device may be moved and connected
to a different television receiver in order to transfer the authorization information
to the different television receiver. The other television receiver accesses informa-
tion on the portable storage device and allows the user to access the content and
features that are authorized on the home television receiver.
