FIGURE 1

A) Western blotting for EBC-1. Cells incubated with the compounds at indicated doses for 24h

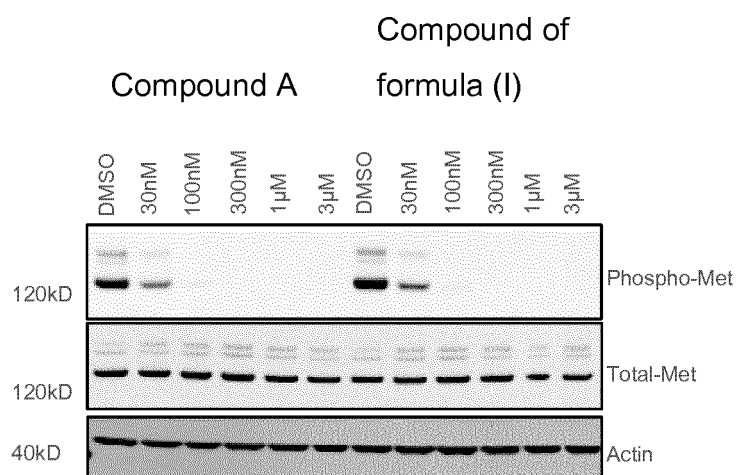

B) pMet protein levels normalized to actin in EBC-1 cells after treatment with compounds

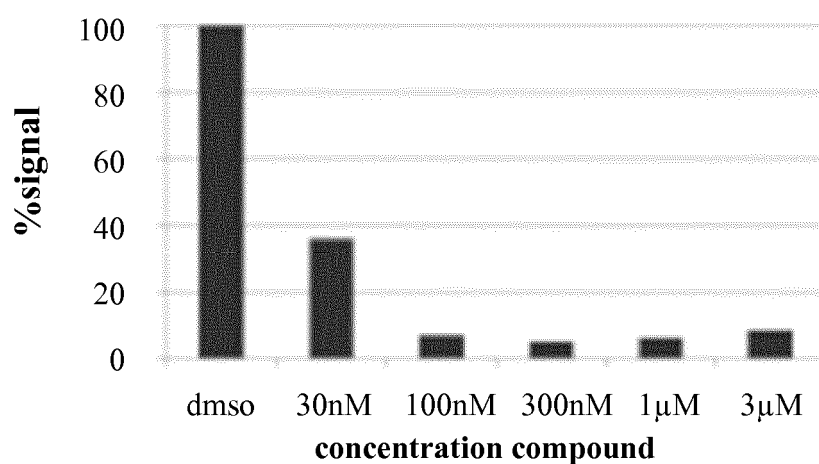

- 2/2 -

C) Western blotting for Snu-5. Cells incubated with the compounds at indicated doses for 24h

D) pMet protein levels normalized to actin in Snu-5 cells after treatment with compounds

Compound A

Compound of formula (I)
