

Abstract

Ice crystal growth inhibiting agents

- 5 Ice crystal growth inhibiting agents and process for
preparing an extract of these agents in which *Zoarcas*
viviparus blood is extracted, it is cooled, the
supernatant constituting the *Zoarcas viviparus* serum
containing the ice crystal growth inhibiting agents is
10 collected, and then the supernatant is frozen.
The present invention also relates to a process for
using these agents for the manufacture of a food
product.
