ACTION

WO 02/30907 A1

(54) Title: PYRAZOLE DERIVATIVES FOR THE TREATMENT OF VIRAL DISEASES

(57) Abstract: The invention is concerned with novel and known pyrazole derivatives, a process for their manufacture, pharmaceutical compositions and the use of such compounds in medicine. In particular, the compounds of formula (I) are inhibitors of the human immunodeficiency virus reverse transcriptase enzyme which is involved in viral replication. Consequently the compounds of this invention may be advantageously used as therapeutic agents for HIV mediated process. Specifically the invention describes the use of compounds of formula (I) for the treatment of diseases mediated by the human immunodeficiency virus (HIV) or for the preparation of a medicament for such treatment.
