

ABSTRACT

POLYMER AND COMPOSITION INCLUDING SAME, AND ADHESIVE
COMPOSITION

- 5 There is provided a novel polymer, a composition containing the polymer, and a novel adhesive composition containing the polymer from which a cured film having desired properties is obtained. A polymer comprising a structural unit of Formula (1):

- wherein Q is a bivalent group, R₁ is a C₁₋₁₀ alkylene group, a C₂₋₁₀ alkenylene group or
10 C₂₋₁₀ alkynylene group, a C₆₋₁₄ arylene group, a C₄₋₁₀ cyclic alkylene group, etc., or a polymer comprising a structural unit of Formula (6):

- wherein Q₄ is an allyl group, a vinyl group, an epoxy group, or a glycidyl group, and R₅ is a bivalent organic group having a main chain containing only carbon atom or at least
15 one of oxygen atom, nitrogen atom and sulfur atom in addition to carbon atom, a composition comprising the polymer, and an adhesive composition comprising the polymer and a solvent.
