Claims

1. A compound of formula (I)

(I)

wherein

R^1 is selected from phenyl, naphthyl and phenyl substituted with 1 or 2 functional groups independently selected from hydroxy, methoxy and ethoxy,
R^2 is selected from hydrogen and methyl,
the dotted line represents a carbon-carbon double bond or a carbon-carbon triple bond.

2. A compound according to claim 1 or claim 2, wherein the double bond between C-2 and C-3 is in E-configuration and the double bond between C-8 and C-9 is in Z-configuration.

3. A compound according to claim 1 or claim 2, wherein the dotted line represents a carbon-carbon double bond and the double bond between C-8 and C-9 is in Z-configuration.

4. A compound according to claim 1 selected from the group consisting of 2-(undeca-2,8-dien-2-yl)naphthalene, 2-(undec-2-en-8-yn-2-yl)naphthalene, 1-(deca-1,7-dien-1-yl)-4-methoxybenzene, 1-butoxy-3-(deca-1,7-dien-1-yl)benzene, 1-(dec-1-en-7-yn-1-yl)-4-methoxybenzene, 4-(deca-1,7-dien-1-yl)-2-ethoxyphenol, and 4-(deca-1,7-dien-1-yl)-2-methoxyphenol.

5. A fragrance composition comprising a compound of formula (I) as defined in any one of the preceding claims, or a mixture thereof.

6. A consumer product comprising a compound of formula (I) as defined in claim 1 to 4, or a fragrance composition according to claim 5, and a consumer product base.

7. The use of a compound of formula (I) as defined in claim 1 to 4 as fragrance precursor.

8. The use according to claim 7 comprising the step of generating (Z)-6-nonenal.

9. A method of masking, reducing and/or preventing scalp malodor, said method comprising the step of applying a compound according to formula (I) as define in claim 1 to 4 to the human scalp or hair.
