

Abstract

FAT COMPOSITION

5 The purpose of the present invention is to provide an
ascorbic acid-containing fat in which the ascorbic acid
content of the ascorbic acid-containing fat is increased,
and which can be used in any food products and can be
applied in a wide range of concentrations. This fat
10 composition contains 50-50,000 ppm of ascorbic acid, and
contains a specific amount of water relative to the
ascorbic acid content.
