

ABSTRACT**METHOD FOR INSTALLING A PLURALITY OF DOOR COMPONENTS**

- 5 The invention relates to a method (200) for installing a plurality of door components (30, 31, 33, 34, 35, 36, 37, 38, 39, 51, 52, 53), comprising at least the following steps:
- 10 a. providing at least one preconfigured door system type (70, 71) by way of an electronic configuration system for selection by a user,
with the at least one preconfigured door system type (70, 71) being able to be retrieved from a database (20) by the electronic configuration system,
with at least one preconfigured door system type (70, 71) being able to be preselected by the configuration system by way of at least one technical
15 and/or functional user specification,
with the door system type (70, 71) comprising a plurality of defined door component types (40, 41, 42, 43, 44, 45, 46, 47, 48, 49),
- 20 b. electronic provision (81, 82) of preconfigured technical data of the selected door system type (70, 71) in order to carry out the installation on site.
