(54) Title: PRINTING CONTROLLER, GUI DISPLAY METHOD, PRINTER DRIVER, AND RECORDING MEDIUM

(57) Abstract: A printing controller having a printer driver configured to display a GUI using language-dependent files containing the display character strings of corresponding languages is disclosed. The printing controller includes a compressed language-dependent file into which the language-dependent files are compressed, a language selection part configured to cause one of the languages which one is used by the printer driver to be selected, and an expansion part configured to expand one of the language-dependent files related to the selected one of the languages from the compressed language-dependent file. The printer driver displays the GUI using the one of the language-dependent files expanded by the expansion part.
