500
Irrevocably Commit Transactions and Other Data to Cryptographically Secured Ledger
502
Provide Read-Only Database to Represent Ledger Content and State
504
Process Additional Write Transactions Via Ledger Interface
506
Update Read-Only Database With New Transactions
508

FIG. 5

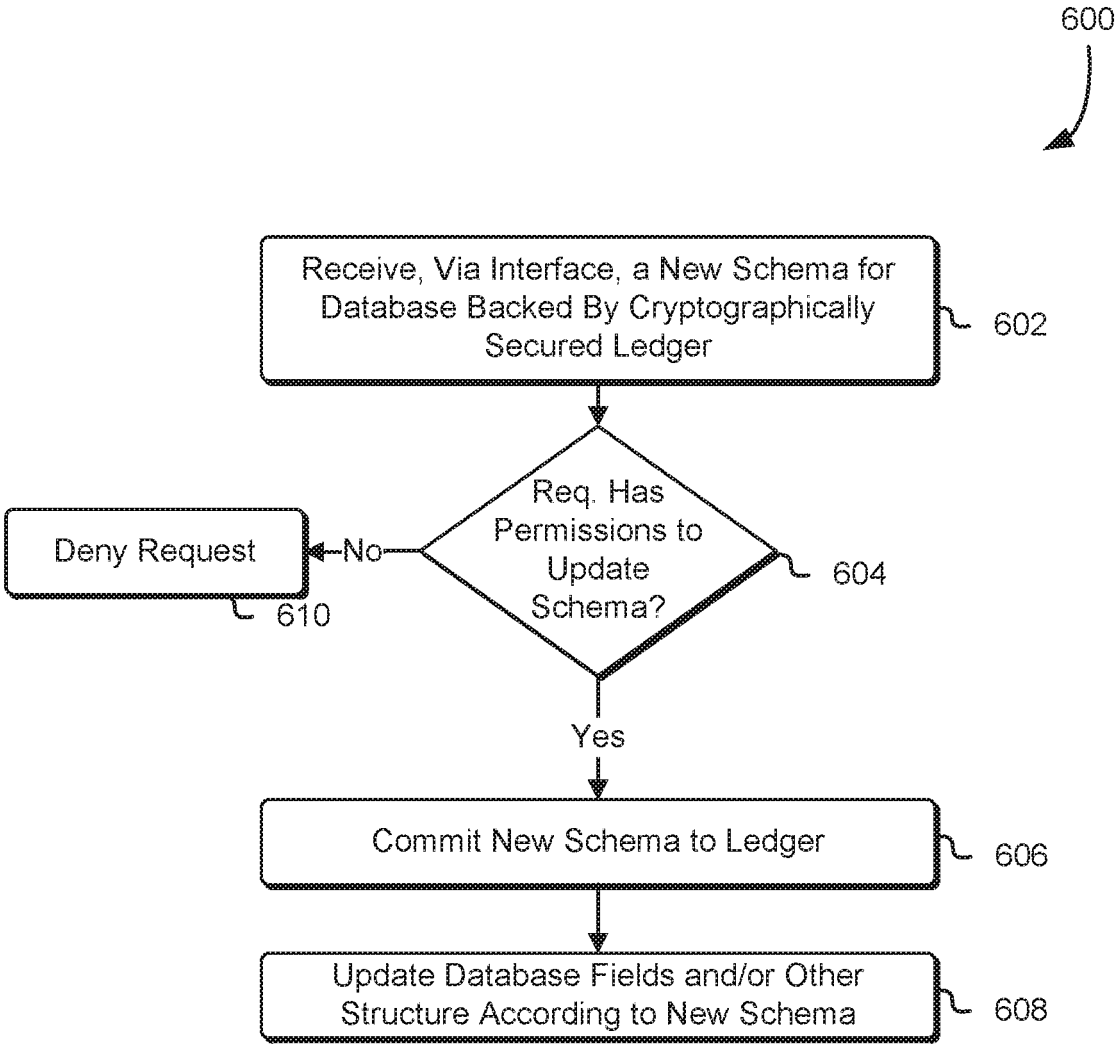

600
Receive, Via Interface, a New Schema for Database Backed By Cryptographically Secured Ledger
602
Req. Has Permissions to Update Schema?
604
No
Deny Request
610
Yes
Commit New Schema to Ledger
606
Update Database Fields and/or Other Structure According to New Schema
608

FIG. 6

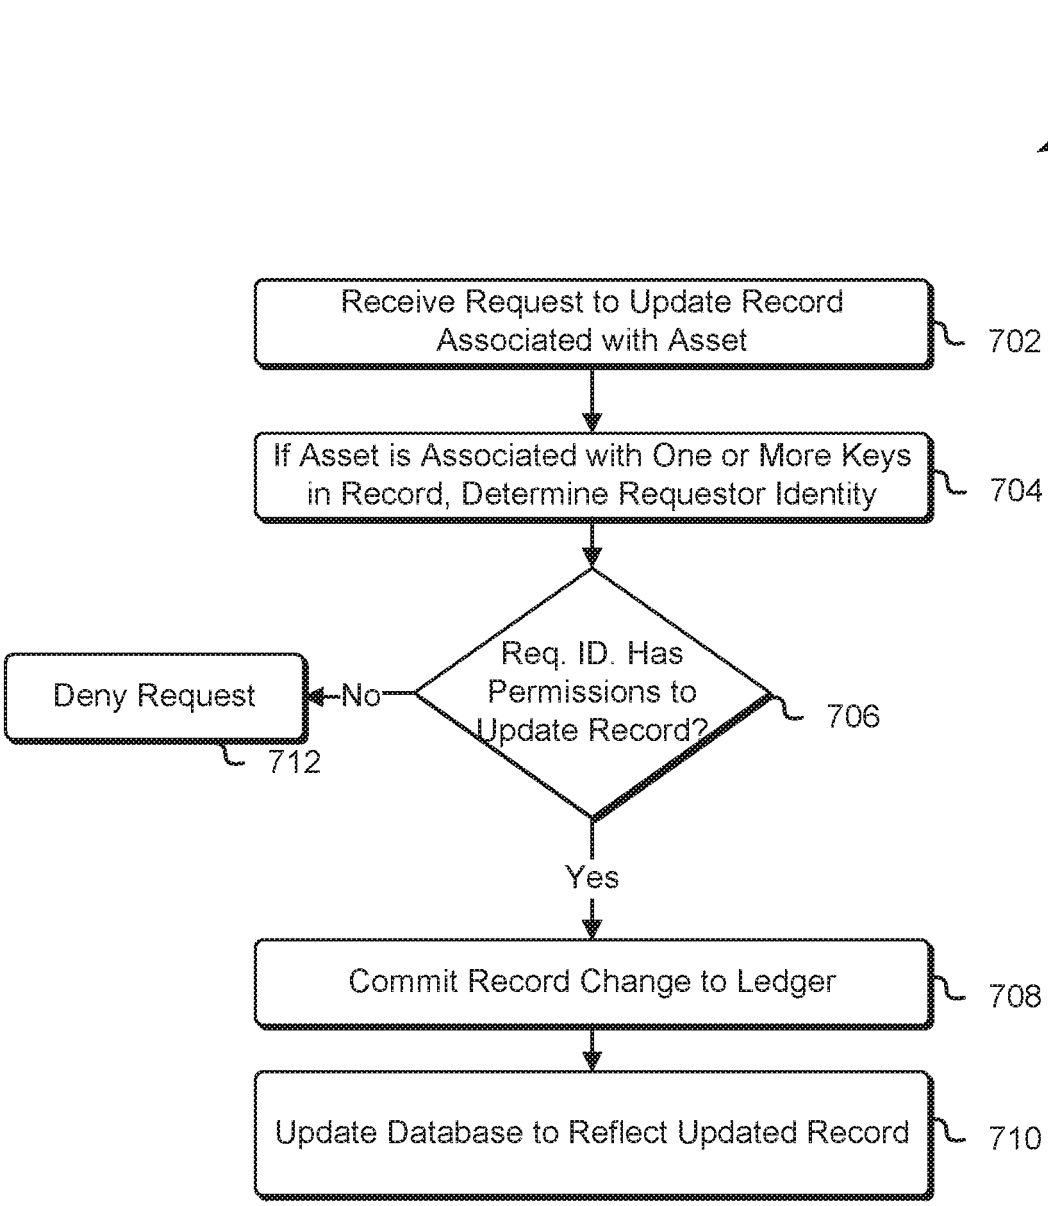

700
Receive Request to Update Record Associated with Asset
702
If Asset is Associated with One or More Keys in Record, Determine Requestor Identity
704
Req. ID. Has Permissions to Update Record?
706
No
Deny Request
712
Yes
Commit Record Change to Ledger
708
Update Database to Reflect Updated Record
710
