(54) Title: METHOD AND APPARATUS FOR PERFORMING HANDOVER

[Fig. 1]

(57) Abstract: A method of performing a handover between a first device and a second device is provided. The method including: transmitting a handover request frame for requesting a handover, including information about a reason for requesting the handover, to the second device; receiving a handover response frame including handover request result information indicating whether the handover request is accepted, from the second device; and selectively performing the handover with the second device based on the handover response frame.
