(54) Title: A DUPLEX NETWORK COLOR PRINTER**(57) Abstract**

A print engine (26.1, 26.2) for a printer includes a first and a second printhead (112). Both printheads (112) include a plurality of inkjet nozzles constructed using microelectromechanical techniques. The printheads (112) are matched so that defective nozzles in one printhead (112) are substituted by corresponding non-defective nozzles in the other printhead (112).
