(54) Title: SYSTEM AND METHOD FOR PRODJECT BID AND REQUISITION PROCESS

(57) Abstract: A comprehensive, web-enabled computer system and method is provided for producing analytical data related a project bid management system. Transactional data related to the bid and project are entered into the computer system through an on-line bid, project requisition and payment process. Using the transactional data stored within the system, virtually any type of analytical data related to single or multiple projects performed by one or more vendors for one or more buyers can be generated.
