(54) **Title**: METHODS AND A DEVICE FOR THE FORMATION OF THREE-DIMENSIONAL MULTICELLULAR ASSEMBLIES

(57) **Abstract**: The present invention relates to devices and associated methods for forming three- dimensional multicellular assemblies *in vitro*. Specifically, the present invention relates to devices comprising at least one three-dimensional multicellular assembly immobilised on a two-dimensional adhesive pattern, wherein said three-dimensional multicellular assembly has an organised structure with a normalised polarity and methods for the formation of three-dimensional multicellular assemblies having an organised structure.
